

ROCK FORCE

CHEMICAL DEMOLITION

Rock Force eliminates danger and noise.

Rock Force expansive mortar is a soundless, non-explosive and safe demolition agent.

It does not cause fly rock, noise, ground vibration, gas, dust or environmental pollution when used properly.

BENEFITS OF USING **Rock Force** EXPANSIVE MORTAR

- **No License required**

Using **Rock Force** expansive mortar does not require a special license unlike explosives and chemicals.

- **Time saving and cost effective**

The amount of time required for breaking rock or concrete can be remarkably reduced. No need for expensive machinery.

- **Simple and safe to use**

Rock Force expansive mortar is mixed with clean water and poured into specific drilled holes. After 2-4 days rocks are cracked and ready for removal. No need for detonators, ignition or professional operators. No noise, dust, fly rock, gas or unwanted debris
